Abstract of corresponding document: **US5677405**

The invention discloses methods of preparing copolymers from norbornene-type monomers and cationically polymerizable monomers or polymers from catalytically polymerizable monomers by employing Group VIII transition metal ion source in a solvent for said monomers at a temperature in the range from -100 DEG C. to 120 DEG C. Also disclosed are copolymers from norbornene-type monomers and catalytically polymerizable monomers.
